

Remember when:

You baked an apple pie for your new neighbor "Just Because", a total stranger would say "God Bless You" when you sneezed

AND

Alongside the customary correspondence in your mailbox you received a gorgeous, classy handwritten note?

The She's Got Papers stationery collection is not only witty & inspirational but fully embodies the term "Paper with Personality".

Though texts and email are quick and convenient,
there is absolutely no substitute for the personal touch.

PEN+PAPER+CONNECTION=MAGIC

AUDIENCES ARE SAYING. . . .

“One of the most charismatic speakers I’ve heard. Wow!”

“In just 30 minutes you reminded us of why taking the time to write words still mean so much.”

“I don’t send Thank you notes nearly as much as I used to. You’re like a walking infomercial for the impact they truly do have.”

“A very witty and entertaining take on the lost art of letter writing.”

W.R.I.T.E. On Time: How to use the handwritten note brilliantly to make a lasting impression, solidify a connection & nurture business relationships.

While world goes paperless, as a society we’re becoming more and more detached from human interaction. While the nuances of technology present a level of convenience, real life is not an emoji. The written word has more power today than ever before.

In 30 minutes Tanea will demonstrate:

- » Why the handwritten note continues to speak volumes both in business & social situations
- » What to include in your note that will guarantee a response every time
- » When to send a handwritten note so that you make a maximum impact
- » How to create a system that garners loyalty from your clients, makes you a keeper & seals the deal. Every time.

ABOUT TANEA. . .

She's Got Papers Presents: Sisterhood & Stationery

Before Facebook, Twitter or Instagram came to dominate the world as we knew it you made friends. In real life. Face to face. You bonded, shared secrets, took Kodak photographs, encouraged & inspired one another and spoke in far more characters than 140. And when the occasion presented itself you'd send your friend a beautiful card or handwritten letter. And guess what? She kept it & cherished it.
